About Our Product

Adver-tek Solutions has introduced the latest in advertising technology with advertising at the gas pump. Adver-tek uses high resolution, flash animations to deliver the most powerful advertisements to their viewing audience. Adver-tek can better market your business by captivating viewers with their 20" LCD screens mounted right next to the pump. Adver-tek's goal is to provide your business with state of the art advertising that can fit your budget and help your company stand out. Our screens are currently setup at Franey's Food Mart (Texaco) on Frederica Street across from Red Lobster.
